

LEYLAND TRAILER & TRUCK LTD

LIGHTING UPGRADE TO LED

Unit 30 Hardwick Grange,
Woolston, Warrington. WA1 4RZ

Andy Morris (Managing Director) at LT&T commissioned RMP to replace the outdated lighting in his warehouse, offices, breakout and circulation areas.

It was vital to Andy that the warehouse was lit to the right levels with minimal glare to prevent hazard to operatives.

BENEFITS

- The office lighting has UGR<19, flicker-free LED panels and linear fittings offering improved duty of care and well-being to staff as well as increasing productivity.
- We included motion sensors across most areas to extend the lifecycle of fittings and deliver more energy savings.
- All luminaires have a 5-year warranty and minimal lifecycle of 50,000 operational hours.

ROI 0.7 Years	Previous Lighting	New Lighting	Saving
Annual Cost of Energy	£6315.88	£1229.06	£5,086.82
Annual CO2 Produced	11,790Kg	22,579 Kg	9,211 Kg
Annual Energy Consumed	25,714 Kw	5,625 Kw	20,089 Kw
